The sixth edition of Anthony Giddens' Sociology is the best yet. Revised and updated throughout, it provides an authoritative overview of recent global developments and new ideas in sociology. Classic debates are also given careful coverage, with even the most complex ideas explained in an engaging way. Written in a fluent, easy-to-follow style, the book manages to be intellectually rigorous but still very accessible.

Sociology is the intellectual discipline that seeks to provide answers to those questions by the deployment of argument and evidence. In doing so it will often question basic assumptions that we all make about our social world and therefore has the capacity to upset settled or conventional opinions. This book is an invitation to engage in this endeavour. concise, accessible introduction to a key discipline in the social sciences; written by an experienced author who is widely respected for his broad and deep understanding of the subject and his ability to write in a clear and compelling way; provides argument and evidence about key sociological questions which will be of help to students approaching the subject for the first time; this is the third book in the Polity Short Introductions series (following Bob Connell's Gender and Stephanie Lawson's International Relations).

Download Free Anthony Giddens Sociology 6 Th Edition

The third edition of this best – selling introductory reader in sociology has been thoroughly restructured, and fully revised and updated to offer a stimulating and wide – ranging set of readings for students approaching sociology for the first time. A strong emphasis has been placed on creating a productive mixture of classic and contemporary readings which is highly readable and lively, yet remains challenging. Whilst particularly useful as a companion to the seventh edition of Giddens and Sutton s Sociology, the reader is designed for use independently or alongside other textbooks. The reader maintains the distinctive approach which Sociology pioneered: strongly comparative and historically informed, it stresses the influence of globalizing trends in social life. The carefully selected readings range from studies of face – to – face interaction

through to the analysis of large – scale global systems, and cover sociological theories of society as well as research methods. Amongst the new selections in this volume are readings on the Internet and virtual communities, the impact of ecological thinking and climate change on social science, offshoring and the future of work, global cities, patriarchy and shifting gender relations, intersecting social inequalities, the idea and practice of restorative justice, new forms of cybercrime, war, terrorism and the prospects for a global cosmopolitan democracy. The readings are arranged in ten thematic sections and each section is preceded by a summary in order to facilitate students comprehension and critical reflection. The result is an exciting new text that encompasses the major themes and debates in both classical and contemporary sociology. Sociology: Introductory Readings will be an essential resource for

Sociology: Introductory Readings will be an essential resource for anyone who wishes to engage with the scope of sociological thought today. -- Back cover.

A rigorous but accessible introduction to Giddens' work, including a critical assessment of his writings on the Third Way.

Social life is in a constant process of change, and sociology can never stand still. As a result, sociology today is a theoretically diverse

Download Free Anthony Giddens Sociology 6 Th Edition

enterprise, covering a huge range of subjects and drawing on a broad array of research methods. Central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies, though our understanding of these concepts necessarily evolves and changes. This clear and jargon-free book introduces a careful selection of essential concepts that have helped to shape sociology and others that continue to do so. Going beyond brief, dictionary-style definitions, Anthony Giddens and Philip W. Sutton provide an extended discussion of each concept which sets it in historical and theoretical context, explores its main meanings in use, introduces relevant criticisms, and points readers to its ongoing development in contemporary research and theorizing. Organized in ten thematic sections, the book offers a portrait of sociology through its essential concepts, ranging from capitalism, identity and

deviance to globalization, the environment and intersectionality. It will be essential reading for all those new to sociology as well as anyone seeking a reliable route map for a rapidly changing world.

Anthony Giddens has been in the forefront of developments in social theory for the past decade. In *The Constitution of Society* he outlines the distinctive position he has evolved during that period and offers a full statement of a major new perspective in social thought, a synthesis and elaboration of ideas touched on in previous works but described here for the first time in an integrated and comprehensive form. A particular feature is Giddens's concern to connect abstract problems of theory to an interpretation of the

Download Free Anthony Giddens Sociology 6 Th Edition

nature of empirical method in the social sciences. In presenting his own ideas, Giddens mounts a critical attack on some of the more orthodox sociological views. The Constitution of Society is an invaluable reference book for all those concerned with the basic issues in contemporary social theory.
