Ann Cameron's beloved and bestselling chapter book series about Julian, his brother Huey, and his friend Gloria all begins right here! Julian has a big imagination. And he is great at telling stories. He can make people—especially his younger brother, Huey—believe just about anything. Like the story about the cats that come in the mail. Or the fig leaves that make you grow tall if you eat them off the tree. But some stories can lead to a heap of trouble, and that's exactly where Julian and Huey end up! This book has been selected as a Common Core State Standards Text Exemplar (Grades 2-3, Stories) in Appendix B. "You have to go a long way these days to find a book that leaves you feeling as happy as this one." —The New York Times "There's a glow here that's hard to resist." —Booklist

Relevant and interesting activities make math more meaningful for students as they see the important role it plays in their lives every day.

This compelling novel follows four women as they learn to balance children, estranged husbands, boyfriends, and problems at work through their faith in God. Michelle, Tonya, Mrs. Judson, and Miz Ida. African-American, white, rich, poor -- they seemingly have nothing in common. Yet every day they face the complex realities of twenty-first-century

urban life as they try to balance their needs with their belief in God. Through the course of a year, these women must come to terms with the past, discover their true identities, and recognize the unexpected miracles that reveal God's all-encompassing love. These four women entertain us and invite us to join in their lives. As they welcome us, they also introduce us to the men in their lives. The men play supporting roles, adding color and zest to the lives of the Cover Girls. Bishop Jakes knows the struggles real women encounter and the losses that make it difficult to face the future. He brings compassionate insight and deep wisdom to this novel and proves that he is not only a gifted preacher, but a born storyteller.

Teaching Content to All includes what every secondary teacher needs to know about instructing students with different learning needs. It helps secondary teachers understand academic diversity among students and then plan for and implement instruction that reaches all students. The text addresses the unique challenges faced by secondary educators committed to inclusion and to meeting standards for all students. Teaching Content to All explains research-based teaching techniques and strategies based on understanding instructional goals rather than simply implementing isolated teaching tools. Examples are heavily oriented toward the content areas, and the planning and teaching
