Every day your brain is challenged in ways you don't consider. Whether it's trying to remember a friend's phone number, trying to finish a report for work or school, or handling issues with other people, you rely on your brain to help you with your reasoning and creative problem-solving abilities. Many factors come into play in how your brain operates. Everything you do, from the foods that you eat to the amount of exercise that you get each day, will affect your brain positively or negatively. The choices you make can also affect your ability to focus and retain, particularly bad choices that can lead to health consequences—depression, stress, and even dementia like Alzheimer's disease. This is why it's important to maintain a healthy active brain, so that it keeps functioning properly through
