Feminist Political Ecology Global Issues And Local ...

Feminist political ecology is a feminist perspective on

political ecology, drawing on theories from post-structuralism, feminist geography, and cultural ecology.

Feminist political ecology examines the place of

intersectional social relations in the political ecological

landscape, exploring them as a factor in ecological and

political relations. Specific areas in which feminist political

ecology is focused are development, landscape, resource use,

agrarian reconstruction and rural-urban transfor

Interconnections between economic development, environmental change, and gender politics are an important topic of analysis in feminist scholarship. Research into women ' s roles in resource-based...

Gender and environment from ' women, environment and ...

Feminist political ecology developed in geography through the 1990s, drawing upon empirical field research in political ecology and a constructivist feminist theory of gender.

Feminist political ecology presents a strong critique of the essentialist aspects of ecofeminism for a failure to adequately address both the material and the ideological bases for women ' s environmental actions, and draws upon the alternative conceptualizations (described above) developing outside the discipline of ...

Feminist Political Ecology: Global Issues and Local ...

Since the publication of *Feminist Political Ecology*, there has been an almost seismic shift in theoretical approaches to gender in the social sciences more generally, as poststructuralist and performative approaches in feminist theory (e.g. Butler, 2004) have challenged role-based and relational approaches to gender that rest predominantly on fixed notions of the autonomous subject, and that focus on men ' s and women ' s differentiated access to and control of environmental resources and ...

Introducing new feminist political ecologies - ScienceDirect  
About the authors. Reviews. About this Textbook. This textbook introduces political ecology as an interdisciplinary approach to critically examine land and environmental issues. Drawing on discourse and narrative analysis, Marxist political economy and insights from natural science, the book points at similarities, differences and inter-connections between environmental governance in the global North and South.
