...

Viewing this notion from linguistics, then, the object of
linguistic semantics is "cognitive construals of the world,"
and this is where Langacker's cognitive linguistics comes in.
Langacker defines construal as "the relationship between a
speaker (or hearer) and a situation that he conceptualizes

Language and the Cognitive Construal of the World: Taylor ...
Iconicity has traditionally been considered an objective, fixed, unidimensional property of language forms, often operationalized as transparency for experimental purposes. Within a Cognitive Linguistics framework, iconicity is a mapping between an individual 's construal of form and construal of meaning, such that iconicity is subjective, dynamic, and multidimensional.
