phenomenon by providing a basic explanation of the technology. It analyses the relevance of this technology for international trade by reviewing how it is currently used or can be used in the various areas covered by WTO rules. In doing

This book offers a comprehensive look at an industry that plays a growing role in motor vehicle production in the United States.

Recently vilified as the prime dynamic driving home the breach between poor and rich nations, here the branding process

The use of sophisticated global media techniques alongside a range of creative marketing activities are the lynchpins of this process. Applying his observations on economic history and the development and impact of global marketing, Anholt
