education has increased continuously over the years. In 2019, China spent a total of 5.02 trillion yuan (745 billion U.S. dollars) on education. The figure was over four trillion yuan in government expenditure on education.

From mass education to universal education: China's way ... Education inequality in China exists on multiple levels, with significant disparities occurring along gender, geographical, and ethnic divides. More specifically, disparities exist in the distribution of educational resources nationwide, as well as the availability of education on levels ranging from basic to higher education.
