by Bar describes in detail what individual bars and combinations of bars can tell a trader about what institutions are doing. This is critical because the key to making money in trading is to piggyback institutions and you cannot do that unless you understand what the charts are telling you about their behavior.

A trend refers to the price action of a market that rises or falls. Either bullish or bearish, trends are the bread and butter of every trader. As always, I'll use examples to illustrate the technical trading strategies to use in range trading and trend following. But before that, let's highlight what makes a trend.

## Trading Price

~~Technical Analysis of ...~~

The "Price Action"

method of trading refers to the practice of buying and selling securities

based on the fluctuations, or "action,"

of their prices; typically the data of these price changes is represented

in easily-readable candlestick or bar

charts, which are the

bread and butter of the
